- Amounts are the payments actually recorded, by the day the money was received. Reservation totals are not used.
- A payment that took a stay above its price is split: the part up to the price counts as a regular payment, the rest as extra money. Nothing is counted twice.
- Each currency is totalled separately in the currency it was received in. EUR and LEK are never converted or added together.

* Recorded before payment history was kept: dated when history started, not when the guest paid.
